

Comparison of the CRG's *Personal Style Indicator* to Other Assessments

Many professionals ask CRG the question, how is your *Personal Style Indicator* different from other (type) assessments in the marketplace? And after 33 years of history, why do 80% of professionals switch to the *PSI* after they learn and acknowledge these differences? This is a grid to help you understand just some of the numerous and significant differences. For additional information please feel free to contact us directly at 1-604-852-0566 or info@crgleader.com.
